

Scholarships Granted by “Osmane Mounif Aïdi Foundation for Culture, Communication & Development” to Syrian Students studying for Master’s Degree in Economics

In compliance with the objectives of the “Osmane Mounif Aïdi Foundation for Culture, Communication & Development” in sponsoring education, supporting Syrian students and qualifying them to access the labor market, the Foundation has launched its scholarship program to enable ten Syrian students to pursue their higher studies in Syria and to obtain a Master’s degree in various management sciences at the « Higher Institute of Business Administration (HIBA) » in Damascus, the first of its kind specializing in administrative sciences that was founded in 2001.

This Master’s program is addressed to those who seek to further pursue their scientific studies to obtain a doctorate degree on one hand, and to those who wish to develop their scientific skills and capabilities in the field of Business Administration on the other.

The Master’s degree covers the main axes of management sciences in two phases (two-year course):

The first year includes a series of basic and specialization courses which the student has to complete successfully.

The second year requires the student to submit a study in which he tackles a topic approved by the Institute’s council. The results of this study will be presented to a specialized evaluation jury at the end of the MA program.

The Scholarship covers registration fees at the “Higher Institute of Business Administration” for the specified two academic years.

The program was first launched in **2016** to cover the academic years 2016/2017 and 2017/2018, and allowed 10 students to obtain a Master’s Degree in various specializations such as Marketing, Finance, Banking, Human Resource Management, Islamic Banks, and Executive Management.

In **2017**, 10 new scholarships were granted to 10 Syrian students for the academic years 2017/2018 and 2018/2019.

In **2018**, 13 scholarships were granted to 13 Syrian students for the academic years 2018/2019 and 2019/2020.

Scholarship announcement through social media, as well as communication and follow-up with students were entrusted to the SANAD Team for Development, a group of young people who seek to support Syrian youth and redirect their energies through organizing events which aim at enabling them in various fields.

The students who benefited from Aidi Foundation Scholarship grants in Economics for the academic years 2016/2017 and 2017/2018:
